Historical Photo DVD Order Form

Please send me the following Historical Photo DVDs.

Edition One \$ 17.00

The theme of the first DVD is George Wills's collection of photos of the Union Canal and surrounding canals of central Pennsylvania, plus the covered bridges across the state.

Edition Two \$ 22.00

The second DVD is more extensive than the first and centers even more on the Union Canal. It follows the canal from the weigh station at Reading to the pumping facilities at the Water Works. Enjoy the scenes along the way of the Eastern Division of the canal as it meanders along the Tulpehocken Creek past Bernville, Womelsdorf, and Myerstown, through the summit at Lebanon and northwest to the Swatara.

Edition Three \$22.00

The third DVD in this series features the Branch Canal, which ran from the Water Works north to Pine Grove in Schuylkill County. This secondary canal opened in 1832 to service the anthracite coal fields of central Pennsylvania. The DVD series was originally produced to spotlight the photography of George Wills, but it has been expanded to include many more historic and contemporary photos.

Special Offer. All three DVDs for \$52.00
